SUMMARY OF QUALIFICATIONS

2.5+ years of experience in financial services with work supporting project management and process improvement. Applied Tableau dashboards to analyze adoption trends and support change management. Developed Power BI reports to strengthen technical analysis skills and strengthen data-driven business decisions. Currently pursuing a master's degree in data science & analytics to complement a strong foundation in business strategy and decision-making.

EDUCATION

Old Dominion University
M.S. Data Science & Analytics – Full Stack *(December 2026)*
Old Dominion University
M.B.A. – Project Management
Old Dominion University
B.S.B.A. – Marketing

PROFESSIONAL EXPERIENCE

Navy Federal Credit Union
Member Service Representative III — May 2025 - Present
Member Service Representative II — July 2023 – May 2025

- Designed and managed the implementation of Project Loop, a process improvement initiative powered by Microsoft Loop, which reduced Lean waste and streamlined task tracking, ownership, and team communication across six collateral duty teams.
- Delivered a regional presentation of Project Loop to the Assistant Vice President and regional branch management, securing executive buy-in and driving adoption across multiple branches within the Tidewater Northeast region.
- Delivered virtual Loop workshops to 13 branches, training over 30 MSRs, assistant managers, and branch managers.
- Led Project BOOST, a gamified change management initiative that increased OneView adoption of branch team members by 10% from Q1-Q2, leveraging Tableau to analyze user-behavior trends and prioritize improvements.
- Facilitated effective collaboration within the Digital and Member Education champion teams by improving meeting effectiveness, defining clear agendas, and fostering outcome-driven communication.
- Identified and mitigated over $60,000 in fraud by analyzing transaction patterns, proactively escalating risks, and applying root cause analysis to support timely, data-informed decisions.

PROJECT EXPERIENCE

Branch Operations Risk Dashboard – Operational Soundness, Navy Federal Credit Union

- Built a Power BI dashboard analyzing weekly teller audit data across a full year to support quality assurance and operational risk monitoring.
- Cleaned and anonymized sensitive data to meet data governance requirements, and analyzed findings to identify common error types, trends, and root causes.

Norfolk Housing Policy Analysis – (MBA 600: Introduction to Statistics)

- Managed housing data (93k+ units) and produced cost-driven recommendations for city leaders.
- Conducted exploratory and statistical analysis to identify housing cost patterns and affordability drivers, translating findings into policy-relevant insights.

Delta Airlines Financial Analysis – S&P 500 Project (MBA 611: Financial Accounting)

- Performed detailed financial analysis of Delta's 10-K reports using Excel-based models, applied DuPont Analysis for profitability measurement, and presented findings.

Management Strategy Simulation – Capsim (MGMT 690: Strategic Management)

- Interpreted financial and operational performance metrics across multiple decision cycles to evaluate strategic tradeoffs and inform subsequent business decisions.
